## America's Top Dog Model Contest

America's Top Dog Model Contest is a national competition that "celebrates dogs that make a difference in peoples" lives. The winner and finalists are featured in an annual calendar, in media, and in fashion shows, which help launch their modeling career. They also win fabulous prizes!

America's Top Dog Model ® 2015 contest theme was "Helping Paws." This competition embraced America's Top Dog Model ® Contest mission to "celebrate dogs that make a difference in people's lives."

### And the winner is...

The national winner was "Peaches," a very helpful Yorkshire Terrier from Lake Worth, Florida. She is a certified pet therapy dog for [Share-A-Pet](#). In Peaches' winning contest story, her human mom, Claire Spielman shared her heartfelt story about how Peaches makes a difference in the lives of so many people through her therapy work.

"Peaches has brought so much joy to children in homeless shelters and hospitals. She also visits patients in nursing homes, but she seems happiest working with children," expressed Claire.

Claire and Bob Spielman have raised Peaches since she was twelve weeks old.

She graduated from the Share-A-Pet organization after over a year of training. "We felt Peaches was a perfect match for pet therapy," explained Claire, "as she is small, bright, obedient, and irresistible. When her little vest goes on, she knows it is time to visit the kids."

Peaches is featured on the cover and represents the month of February in America's Top Dog Model ® 2017 calendar and she received fabulous prizes.
